Arlene Ramos – Science Teacher

On Feb 23 me and two of my 10th grade students in medical assisting 1 Anita Austin and Aura Orantes were invited to attend the Global STEM Alliance meeting with Bill and Melinda Gates to talk about climate change, women empowerment, clean, cheap and accessible source of energy. They challenged the youth to take the initiative to help make those changes to improve the earth we live in. The event was attended by students from all over the world. This event was made possible through the New York Academy of Sciences scientist in residence program which our school is one of the recipients of the program. The event was held at the YouTube space in the meat packing district NYC.

Girls Innovation Awards - Congratulations to Daphna Fertil, Fahamida Fariham, Tiana Nelson and Leslie Rosario

Powered by AdVenture Capital, 50 girls in select areas will come together to design projects, receive professional mentoring from Dannon Institute and Dannon company leaders, and compete in a head-to-head pitch competition! During this free 5-hour design thinking workshop, students will develop and refine ideas to improve health and wellness in their schools. At the end of the day we'll award \$15,000 in grants to help make those ideas a reality!
